Coastal Grand Mall | Myrtle Beach, SC

Riverdale Town Center | Riverdale, GA

City Block | Wausau, WI

Aquarium of the Pacific | Long Beach, CA

Morongo Casino | Cabazon, CA

When it pertains to entertainment venues or retail spaces, tensile fabric structures are model candidates for providing generous natural daylight and signature aesthetics for concert goers or shopping patrons. The lightweight nature of fabric membranes allows for efficiently spanning long distances while providing unobstructed sight lines. This is an important feature for performances at amphitheatres, stage canopies, and entries to retail stores or food courts.

Tension Structures, a division of Eide Industries, Inc., provides expertise in design-build services helping architects and owners develop their tensile project ideas, construct iconic structures and ultimately create a compelling and exciting atmosphere for music fans and retail consumers. Whether it's a permanent durable PTFE membrane canopy or deployable flexible PVC fabric structure, Tension Structures by Eide will help discover new solutions to conventional design challenges.

Division of Eide Industries, Inc.

About Us

Proudly manufacturing in the United States since 1938, Tension Structures by Eide are fabricated in our 41,000 square foot Southern California facility. Eide Industries combines proven industry standards, technical expertise, professional turn-key services, state-of-the-art equipment, and high performance materials to manufacture customized products with uncompromising quality and engineered design-build details.

We specialize in design, manufacturing and installation of structurally complex and creatively challenging commercial, government and prototype design projects regardless of job size, scope of work or administrative demands. Eide welcomes all projects that include participation and compliance with FAR, DIR, OATELS / Apprenticeship Program, Prevailing Wage, Union Labor Agreement and any additional Project Specific requirements.
